## GRUMPLE

## Recommended Number of Colors:

 1-3
## Step 1

Crumple your fabric into a scrunched bundle. It can be as loose as you would like, but keep in mind that the tighter it is the more defined the crumples will be

Step 2
If you prefer, you can put rubber bands around the entire fabric in a cross formation to keep it in the desired shape

Step 3
Choose colors with caution: this method causes colors to blend easily and can result in colors coming out more brown than intended

Once you are done designing make sure to grab a zip lock bag and take-home instructions from a MakerLab staff member
