

FIRECRACKER

**Recommended Number
of Colors:**

2 - 6

Step 1

Lay the item flat and scrunch the fabric into a tube shape. Secure it with two or more rubber bands, dividing it into three or more sections

Step 2

Now apply the dye! This technique makes use of white as a color, so feel free to leave some sections white. Don't forget to match the colors on the back

Step 3

Once you're done applying the dye, place your item as-is in a plastic bag. This will keep the cloth damp and allow it to process

Once you are done designing make sure to grab a zip lock bag and take-home instructions from a MakerLab staff member
