

# Tie-Dye Take Home Tips

## Let It Rest

Leave your project in the bag for 12-24 hours before washing.

## Rinse Cold

Before you put your project in the washing machine, make sure to rinse it of any excess dye with cold water.

## Time to Dry

After washing, the project will be safe to air dry or put in a dryer.

## Use Gloves

When handling your tie-dye project, use gloves. Be aware of dyeing exposed skin.

## Wash Hot

Your dyed project will have the best results if washed alone with hot water.

## Enjoy!

Enjoy your self-made tie-dye project! Share your finished project with @boisemakers on Instagram!
